

DIMENXION® conference

V3

THE ONLINE MEETING PLANNER

## DIMENSION® conference V3 – THE ONLINE MEETING PLANNER

DIMENSION conference is an interactive online meeting planning and sales promotion tool for the hotel industry, congress centers or any meeting space providers and their clients. User friendly, informative and always at your service, this valuable addition to any event department is on duty 24 hours a day and 7 days a week. This online application reduces the need for costly printed MICE materials and saves valuable time previously required explaining room details. Clients getting into contact with you through this application are well informed and ready to discuss details. Your employees often only have to take the booking.

Created as an ASP (Application Service Provider) solution, DIMENSION conference Online Meeting Planner does not require any interface with your IT or website and allows event planners to have immediate access to the meeting information and room planning function online without any software downloads.

With DIMENSION conference implemented, clients to your website can view the interactive 3D animation of your meeting/banqueting facilities and become fully informed about your facilities: location of your facilities, have a bird's eye view of selected room(s) with interactive selection of different seating possibilities (parliament, ball-

room, theatre, banquet, conference, u-shape and reception), available conference equipment and fixtures, print their setup diagram or download as PDF files. Your clients have the possibility to search for certain meeting rooms based on certain criteria's: room measurements, number of attendees and additional requirements and be informed about current specials and available packages as well as sending a professional RFP inquiry to you by directly filling out the RFP application form online.

## DIMENSION® conference V3 – THE ONLINE ROOM PLANNER

Using the new feature of DIMENSION conference – Online Room Planner – you will receive an additional function which allows you to provide your customer with an individual link to access the selected meeting room(s). With DIMENSION conference – Online Room Planner your customer can create their own setup layout per scale of already booked meeting room(s) online without any required software download. In addition, your clients can email their abstracts to you for final confirmation.

## EXCEPTIONAL ADVANTAGES OF DIMENXION® conference V3

### FOR THE FACILITY
